

# TARO Token – Official Whitepaper

Version: 1.0 | Date: May 2025

Website: [TaroAi.net](https://TaroAi.net)

Contact: [Tarotoken.net@gmail.com](mailto:Tarotoken.net@gmail.com)

## 1. Introduction

TARO is a decentralized utility token on the BNB Smart Chain (BEP-20 standard), powering the TARO.AI platform – an AI-driven tarot and fortunetelling ecosystem. Users spend TARO to receive personalized tarot, love, destiny, or coffee readings. With each transaction, a portion of tokens is permanently burned, reducing supply and increasing scarcity.

## 2. Vision & Mission

Vision: To create a globally accessible, spiritual, and AI-powered fortunetelling experience.

Mission: To provide a mystical and intelligent journey through tarot and destiny readings, using TARO as the primary access token.

## 3. Use Cases

- Pay for tarot and fortune readings
- Unlock premium AI features and deep insights
- Gift readings to others
- Participate in community votes and spiritual decisions
- Access exclusive experiences through token burning

## 4. Tokenomics

| Category                   | Allocation         | Description  |
|----------------------------|--------------------|--|
| Total Supply               | 10,000,000         | Fixed and non-inflationary   |
| Team Locked Wallet         | 15%<br>(1,500,000) | Locked for 1 year<br>0xe2A1Df9907b2AbBF540F0997A2F0A9DfDf8041B3      |
| Founder Allocation         | 5%<br>(500,000)    | Allocated to project creator (Sarvina)                               |
| Public Sale & Liquidity    | 30%<br>(3,000,000) | Includes pre-sale and liquidity on PancakeSwap                       |
| User Rewards               | 15%<br>(1,500,000) | Community growth, referrals, and promotional campaigns               |
| Partnerships               | 5%<br>(500,000)    | influencers marketing Collaborations                                 |
| Development & CEX Listings | 30%<br>(3,000,000) | Platform development, integrations and centralized exchange listings |

Official Contract: 0xaD989A277Be850D81Bb67829B706a7B34bA433eD

## 5. Burn Mechanism

TARO tokens are burned when users pay to unlock features and services on the TARO.AI website. The burning process occurs as part of using the platform, allowing access to readings and premium site functionalities. There is no burn address or function hardcoded in the smart contract; all burns are initiated through the official website during user interactions.

## 6. Roadmap

Q2 2025

- Website launch
- Smart contract deployment
- Whitepaper release
- AI tarot engine testing

- Burn feature activation

#### Q3 2025

- Public launch on PancakeSwap
- Full tarot and love readings go live
- NFT tarot deck preview
- Referral system implementation
- Multi-language support

#### Q4 2025

- AI Pastore reading launch
- TARO wallet integration
- Staking features
- Mobile app beta (iOS & Android)

#### 2026+

- DAO for governance
- Bridge to TON blockchain
- Expansion to astrology, runes, and I-Ching

## 7. The Team (Pseudonymous)

Founder: Sarvina

The team includes tarot experts, blockchain developers, designers, and AI researchers. Due to the spiritual nature of the project, members operate under pseudonyms.

## 8. Legal Disclaimer

TARO is not an investment token. It is designed solely for utility within the TARO.AI ecosystem. There are no guarantees of profit or future value.

Usage is subject to legal conditions in your region.

## 9. Visual Assets
